

Dear Parent/Guardian,

The New York State Department of Health is requiring schools to provide screening testing for COVID.

**You only have to fill out this form if you want to enroll your student in weekly screening testing for COVID.**

**This is voluntary for students.**

- The testing will be the less invasive rapid testing we did last year.
- Students who participate will be tested once a week.
  - We hope to be able to provide the testing on campus during the school day.
  - **There is the potential the testing site may move to a county-run site, parents/guardians will have to transport their student there to be tested.**
- It will not cost you anything.
- Students are not required to participate.
  - Unlike last year, there is no requirement for us to hit a certain percentage of students to be tested in order to stay open.

**If you would like to enroll your student in voluntary weekly screening testing, please fill out this consent form by September 17 and return it to your student's program.**

Only fill out this form if you want your student tested weekly for COVID.
