Just like magic, this energetic swing tune by Larry Barton will make your band sound like a million dollars. Starts out with the "head" being presented by 1st Alto, 1st Tenor and 1st Trombone and then the whole band gets in the act to produce a big solid ensemble sound. Includes an open solo section for the soloists of your choice and suggested written solos are also provided! Range requirements are very modest and a guitar performance help sheet is included! An outstanding choice for any performance situation! (Pub)

-----  
 The magic of this slinky swinger will put your audience under a spell! The lead wind players start things out on the head, but before long the full band is jamming along. It's an "in your face" chart that's all about attitude! (JWP)

This hot Gordon Goodwin chart is now for the younger player. Slick and funky describes this very accessible arrangement. There are written solos for 1st alto (cued for 2nd alto) and a 1st trumpet solo cued in all four trumpet parts. Lead trumpet has a written A above the staff, but technically this chart is not difficult and will come together quickly to earn a spot in your program. (Pub)

The infectious groove of this classic rock tune from the band Toto will have them dancing in their seats. "Africa" has been arranged for the young player at a tempo of half note = 90 BPM. The solos are written for trombone 1 and alto 1. The top note for trumpet 1 is a written G on top of the staff. Optional parts include flute, clarinet, and vibes. Here's a great tune and a fine chart! (Pub)

-----  
Here's a wonderful take on the group Toto's classic rock tune from the '80s. It's solidly scored throughout and sounds amazingly like the original while remaining accessible for developing jazz bands. With nice dynamic contrasts, an uncomplicated melodic line, and a medium rock groove, this chart is one that younger players can really dig into, yet it will sound mature when performed by a more advanced group. More features include: half-note tempo of 90 bpm; written or ad lib solos for alto sax 1 and trombone 1; trumpet 1 range to written G on top of the staff; and optional parts for flute, clarinet and vibes. Great tune, fine chart! (JWP)

Made famous by John Coltrane, but treated here in a more traditional Afro-Latin style, this is something a little different for jazz ensemble. As with all Mossman charts, the rhythm section is meticulously notated to insure the correct style. The 3/4 pattern throughout draws heavily on African influences and the melody is masterfully passed from section to section. A single pentatonic scale works for the solo section making this a wonderful vehicle for involving many soloists. (Pub)

Arranged here in a Basie-style slow swing setting, this well-crafted chart starts out as a study in ensemble writing with the brass in buckets and the drums on brushes. Later there is a solo for trumpet followed by a shout chorus where the full band really lets loose. Quality writing for contests and festivals! (Pub)

Here is a slow, swinging, lovely, warm, relaxed composition. The arrangement is subtle and easy to play. There are not a lot of pieces by Pat Metheny that swing in this way. The arrangement suggests flugelhorns throughout. There is solo space for alto saxophone and trumpet (or flugel). This has been well received by many audiences at Bob Curnow Big Band concerts. (Pub)

Bold, contemporary rock with a big sound and huge impact! Playable by most mid-level bands. Ranges and technical demands are very reasonable and it includes an open solo section over very easy changes (written suggested solos are included). EXTRA STRENGTH ROCK & ROLL! (Pub)

This funky rock chart sure is easy enough...but we won't tell anyone! It's bold and contemporary with a big sound and huge impact, along with reasonable ranges and technical demands. An open solo section with written suggested solos and very easy changes will really build confidence in improvising. And, the most amazing thing is that such a playable chart sounds so darn hot! The unique polyphonic technique that Fred uses so well in many of his compositions really makes this new piece sparkle. After the opening section of intertwining, syncopated lines in the ensemble, the saxes take over with sustained brass harmonic underpinning. The wide dynamic contrasts that are integral to the piece and the focus on rhythmic independence between parts make "Aim High" an excellent festival selection. (Pub)

Here's a nice easy-goin' swing chart on a great jazz classic composed by Fats Waller. Arranger Ralph Ford, one of our specialists in writing for young bands, does it once again. Solos are for piano and tenor sax (both written out), the brass ranges are modest, and this arrangement is loaded with natural swing licks. A super chart! (Pub)

-----  
 You can't go wrong with this one! It's a famous tune by one of the most memorable figures in jazz, Thomas "Fats" Waller, and it's well within the capabilities of younger bands. It also includes an easy to play, written piano solo that sounds super. It's sure to make your band sound great even with limited rehearsal time. (JWP)

The title refers to the somewhat "mystical" style of the opening of this wonderful and fun-filled chart. After the opening, and a couple of screams of terror from the band, the piece settles into a really hip latin groove. Counterpoint with rhythms and melodies make this chart very, very interesting to play and hear. Solo space is available to the soloist(s) of your choice. Ranges are very reasonable. Here's a Wes Montgomery bossa/rock tune that grooves along at around 145 bpm with the melody line played by tenor 1 and trumpet 2. With very playable ensemble sections and hits, this is a great vehicle for teaching style and ensemble cohesiveness. The solos are written or ad lib for tenor sax and piano, the lead trumpet range is to written E top space, and optional parts are included for vibes, flute, clarinet and more. This one is accessible, solid, and includes nice contrasts. Angel is one you don't want to miss! (JWP)

This beautiful swing ballad is the perfect blend of laid back swing style and smoldering intensity! The feature instrument throughout is trombone, and the written solo part makes the most of that smokey trombone sound! Jam-packed with style and not hard to play either! (JWP)

Commissioned by the Gates Chili High School Jazz Ensemble in Rochester (NY), this winning original alternates between a Latin and straight 8th-note feel, and draws from the ascending melodic minor scale and its related modes for source material. It's a sophisticated chart with moderate range demands and notated rhythm section parts. Soloists can navigate the 16-measure solo using just a single scale over hip jazz chords. (Pub)

Here is a medium swing version of this marvelous often-played standard. Peter Blair's chart opens with a duet of alto and trumpet with ensemble punches. The saxes are featured on a chorus and there is a written or ad lib solo for piano. Great sounding chart! (Pub)

-----

This is a great old tune! Except...there's nothing "old" sounding about it. It's a medium swing version of a marvelous, often-played standard that opens with an alto and trumpet duet and is filled with tight ensemble punches. Written for developing bands, this chart is a swinging, shuffle blues with a fun saxophone soli, a written or ad lib solo for trumpet, and a richly scored ensemble section. Showcasing the entire dynamic range of the band, from a whisper to a roar, it also features Kendor Konvertible scoring for 9-17 players. Each set includes a guitar chord chart by Jim Greeson and optional flute, clarinet, F horn, tuba and vibes parts. (Pub)

-----  
 Don't miss this swinging, shuffle blues chart for developing groups that cooks right off the top! Set at about 132 bpm, it features a full and hot saxophone section soli, a stop-time section leading into the solo, a written or improvised solo for trumpet, and a section that comes way down after the solos that feature the brass and then the full ensemble. It then opens up and really begins to swing! Additionally, it can be played with optional reduced or expanded instrumentations. Back Online is accessible for many bands and is highly recommended! Kenny Dorham's relaxed Latin classic is a must for all jazz programs. Mark has retained elements of the original version using a small group (alto, tenor, trumpet and trombone) on the opening statement, then the saxes playing the important secondary theme. Included after the flexible solo section is a sax soli, ensemble shout, and stop-time section featuring the drums. This chart is destined to become a classic in itself. (Pub)

One of the essential Latin jazz classics, this catchy tune moves and grooves in Mark Taylor's spicy arrangement. It really makes the most of the Latin rhythmic feel, with exciting solo space and well-articulated ensemble backups. Very cool... and hot! (JWP)

Frank Rosolino's jazz waltz is loved by all, and Holman's arrangement of it is superb. He takes the band (an listener) on a wonderful excursion ... from the quiet beginning, through open" alto sax and trumpet solos", to wonderful, exciting ensemble sections," a roaring "shout" chorus" and back again to a quiet", " tuneful ending. This is exactly as recorded in the "Bill Holman Band Live" CD. Very modest brass ranges make this an attractive piece for just about any band. This is Holman at his best! (Pub)

One of the signature tunes from jazz legend Thelonious Monk is this quirky and iconic blues! Mark's great-sounding version for big band maintains the medium swing feel and "Monk-isms" from the original, but he adds his own stamp of originality with crafty ensemble lines, rhythmic twists, and some powerful full band statements in mixed meters. Solos are included for tenor, trumpet and drums, along with marvelous writing for the entire band. (Pub)

The essence of the original is captured here with this updated version of Dave Brubeck's classic tour de force in a big-band setting! The meter alternates from a 9/8 straight Afro-Cuban feel to a more relaxed 12/8 swing style, and they blend perfectly with Brubeck's rhythmic patterns. There's solo space for alto 1, trumpet 2 and drums, and lead trumpet goes up to written C above the staff. This is an exceptional chart for festival or concert! (JWP)

The landmark album by Miles Davis Birth of the Cool brought us a unique instrumentation (the nonet) along with distinctive jazz sounds. Without straying from the intent of the music and working directly with the original score, Mike Tomaro’s adaptation for standard instrumentation makes this wonderful classic available to the contemporary jazz ensemble. The style is laid back swing and includes solos for baritone sax, trumpet and piano (like the original). (Pub)

Recorded by Trombone Shorty on his 2011 album For True and featuring Rebirth Brass Band and 5th Ward Weebie, this hot tune has a funky New Orleans style groove with a moderate tempo and catchy riffs. The trombones get the spotlight to start with, followed by tight ensemble playing and later space for a trombone soloist. (Pub)

The new Jazz For Young People Series! Arranger Dave Rivello arranged this great tune to feature 2nd trumpet in the style of Miles Davis. Featuring the trademark Miles Harmon-mute sound throughout the chart, Dave provides a written out (or ad lib) solo, tasty backgrounds, and a very hip shout chorus for the medium level players. Includes all the usual optional parts. Terrific chart! Correlated to the Jazz at Lincoln Center Jazz for Young People Curriculum. (Pub)

 Arranger Dave Rivello arranged this great tune in a nice and easy, relaxed, swing genre to showcase the 2nd trumpet in the style of Miles Davis. Featuring the trademark Miles' harmon mute sound throughout the chart, Dave provides a written (or ad lib) solo, tasty backgrounds and a very hip shout chorus for medium level players. The arrangement is sensitive to the quietness of the harmon muted trumpet sound. Feature your young trumpet star on this one and have a "cool" moment in your concert! Highly recommended! (JWP)

The best of the amazing Herbie Hancock! Arranger Mike Kamuf scores this hip, funky Herbie Hancock tune for the young player. This chart is ideal for this level with only three chords, a repetitive groove and catchy melody. This chart includes written solos for tenor sax and trumpet and lead trumpet range goes up to written top line F with optional G on top of the staff. A superb chart from the first note to the last. This title is available in SmartMusic. (Pub)

This is a show-stopping chart by arranger Alan Baylock of the Ellington/Tizol classic. The groove moves logically between an up-tempo swing, a "Maiden Voyage" feel, a double time swing and a 12/8 Afro-Cuban feel. Features include plenty of solo space for tenor saxophone, brief written melody lines for various instruments, and lots of moving lines and sax solis. Lead trumpet range is to written D above the staff. (Pub)

As recorded by the Woody Herman Big Band on their 50th Anniversary Tour album (Concord Records CJ-302), this gorgeous adaptation of Coltrane's classic ballad stars tenor sax in the solo role. Sax and brass solis provide a gradual build into the solo section, then a full-band chorus bridges the gap between the solo and closing moments. (Pub)

Finally, there is a Herbie Hancock piece for the younger band! From Hancock's famous Headhunter recording, here is a great opportunity to play the biggest jazz-rock hit of all time. The melody is first played by alto, tenor, trumpet and trombone, then by the trumpet section. Next up is a flexible open solo section with a solo line written for all the winds, so anyone or everyone can solo! Top note for lead trumpet is written G on top of the staff. Super-cool chart! Whoa, hold on to your feathers! If you want energy and excitement and a funky groove, then check out Kris Berg's chart, The Chicken. The legendary electric bassist Jaco Pastorius recorded this powerhouse tune and arranger Kris Berg has adapted it for the Jazz Band Series. If you have a strong electric bass player, then you have found yourself a showstopper with this arrangement. The tenor sax solo (written solo provided), the optional guitar solo, and the solo bass line will showcase your soloists. Your ensemble will totally devour The Chicken. Guaranteed to pluck the audience right out of their seats! (Pub)

Warner Bros. Publications is proud to present this important new series, Jazz at Lincoln Center Library. Each selection was selected by the Center's musical director, Wynton Marsalis, for Essentially Ellington: The Annual Jazz at Lincoln Center High School Jazz Band Competition. Each transcription is direct from the recordings of the immortal Duke Ellington, and they are not only authentic, they are perfect for your jazz ensemble. Features information about the original recording, rehearsal notes from Jon Faddis and Brent Wallarab, and performance suggestions from Wynton Marsalis. These classic tunes represent jazz at its finest! (Pub)

This extremely interesting original is based on a modified New Orleans-style street beat. A "gritty" bass part really helps add to the style, and there are plenty of opportunities for your pianist to add fills throughout. A tenor solo leads into some creative ensemble writing and a driving shout chorus. Very unique and destined to be one of the bestsellers this year! (Pub)

-----

Once you hear the gritty bass line that opens this chart, you'll know you're in for something different! This is a unique chart that has captured the new sound of jazz in New Orleans, a clever combination of the old street beats and a hip, funky groove that just doesn't let up. This one is simply beyond words, you have to hear it to believe it! (JWP)

Bob Mintzer has arranged Neal Hefti's classic "Cute." From the Bob Mintzer Big Band's newest CD, Homage to Count Basie, this is a fresh and contemporary treatment of the clever and appealing tune. The tempo is brisk and the rhythms and harmonies are sophisticated, making this chart suitable for the more experienced band. Featuring the drums (of course) along with tenor, trumpet, and trombone. Audiences and musicians will delight in a creative arrangement of this well-known big band standard written by one of today's most innovative writers. Optional woodwind doubles. An outstanding chart! What a gorgeous ballad. This wonderful Gershwin standard, recorded and performed countless times, is ideal for your students to play and learn. Featured are beautiful chord changes throughout with nice block harmonies for the 'bones, a muted trumpet solo, and alto sax and tenor sax solos each playing written-out melodic lines. Speaking of chords, this is a great opportunity to teach students to recognize diminished chords. Your drummer is using brushes until the end, keeping this chart tender and sweet, and the brass ranges are quite reasonable with trumpet to G and trombone to F. It's a great change-of-pace ballad for any setting. Roy Phillippe truly captures the essence of Gershwin with this classy arrangement. (Pub)

-----  
Gorgeous, simply gorgeous! This tender, sweet arrangement captures the essence of the Gershwin ballad. Your students can get some good experience recognizing the diminished chords found here. Stylistically it's right on the money, yet it's very playable. A stunning chart! (JWP)

This solid swing tune featuring an open solo section, modest brass ranges, and lots of full-ensemble scoring comes with a sheet of written solo lines for all instrument types for players with little or no improvisation experience. In his score notes, Doug cautions that horns should strive for a well-balanced sound in all ensemble sections, resisting the temptation to overblow. Rhythm section parts are notated with chords cued. Flight of the Foo Birds is one of the great tracks from the Basie band of the 1950s, and one of a series done for the band by Neal Hefti, to be found on The Atomic Mr. Basie album. This is a transcription of the original arrangement, and includes fully transcribed Trumpet, Alto and Tenor solos, plus the Piano fill-ins and even the 2 bar more...drum solo leading into the shout chorus. This chart really swings. (SMP)

-----

This Lennon and McCartney favorite is the perfect vehicle to feature your flugelhorn or trumpet soloist. It lends itself so well to the jazz idiom that you would swear it was originally written as a jazz tune. Mark Taylor's chart features a smooth Latin feel, interesting harmonies and a few mixed meters. The tasty ensemble lines contribute to this creative and appealing solo feature. It's terrific and highly recommended! (JWP)

With Arturo Sandoval's newest CD "Hot House" the trumpet master strongly asserts himself as a force to be reckoned with in the area of big band jazz. This is the lead-off tune to the CD and it combines the traditional Cuban dance style with a bit of contemporary funk. The result is a sultry mix that is both dynamic and powerful. Freddie Hubbard's "Gibraltar" is a jazz standard recorded by all the greats. A very hip samba played at around 180 BPM, written-out solos provided for trumpet 2 and tenor sax 2, plenty of action for the drummer, and lead trumpet range to written A. "Giddyup!" is here to get you moving right out of the gate. Its swinging feel and rhythmic melodies are reminiscent of Bob Mintzer's music. Solos for tenor, trombone, and/or guitar or piano.(Pub)

-----  
 Better big bands will have a great time with this chart that features a catchy, upbeat swing groove with a hip-hop vibe. There are idiomatic melodic and rhythmic themes in all the horn sections which keep returning, thanks to a uniquely modified rondo form. The improvised solos are scored for tenor and trombone and the brass ranges are moderate for this difficulty level. Come on, let's go! (JWP)

Originally written for the Stan Kenton Orchestra and featured on the new Mark Taylor/Steve Fidyk Big Band recording "A Perfect Match" (heard here), this is a challenging yet rewarding samba for mature bands. Primarily a feature for flugelhorn and trombone, the full ensemble answers with hot unison lines and screaming punches. This one demands attention! (Pub)

Made famous by the Woody Herman Thundering Herd, here is a marvelous adaptation for younger players by Paul Murtha. Following the opening chorus for piano, the trumpets state the main theme with answers from the trombones and a counterline in the saxes. The solo section is flexible for any player, but sample solos are provided for trumpet and alto sax. The final ensemble chorus starts softly and builds to a climactic ending - with plenty of attitude! (Pub)

Featuring a dark intensity and a powerful unison riff figure in minor, this medium swing chart is a great showcase for your bass player as well as the trombone section. The harmonic structure is quite simple, but the depth of the arrangement comes from the thematic layers that are added throughout. Written solo (or soli) sections are included for the trombones and also trumpets. (Pub)

Your students will love playing this swing tune from "Royal Crown Revue". The groove is set up with a drum solo laying down a "Sing, Sing, Sing", style Krupa feel before the band enters. A trumpet with plunger solo leads into a soli section from the saxes. Next, the Trumpet section is featured on a soli section before a half time feel give the brass a chance to blow. The tempo returns to the original groove before a solo section featuring written solo lines for Tenor Sax. Finally, there is an open drum solo before the band recaps the main theme. (Pub)

There's always time for the blues! This original by John Clayton is set in a bluesy and relaxed tempo and provides lots of room for soloists to "holler" at each other. After the opening conversation between two trumpets, the sax section lays down the main theme followed by answers from the brass. There are solos for tenor, alto, trombone, piano and the full band takes it the rest of the way. This is a great chart to settle back on and just swing! (JWP)

The songwriting team of Ellington and Strayhorn is legendary. This is one of their lesser known tunes, but certainly not less in effectiveness in the able hands of Frank Mantooth. Alto and Flugel are featured off the top in this medium swing chart, then the rest of the ensemble joins in with some very effective scoring textures. The open solo section gives this chart added flexibility. (Pub)

This beautiful Bossa Nova shows us Thad's sensitive side. Re-scored by Mike Carubia. (Pub)

-----

Mike Carubia has done a fine job of re-scoring this Thad Jones chart at an easier grade level without losing the essence of the original. This beautiful Bossa Nova is one of the more sensitive ones from Thad's book. Suggested or improvised solos are provided for trumpet and piano and there is an optional added flute part. The saxophone lead is for soprano; however there is an alto lead part included. On the quiet side throughout, this chart will provide excellent change of pace programming! (JWP)

This chart has a contemporary half-time funk feel played around half note=96 BPM. Lead trumpet range is to written B-flat, a suggested written alto sax solo, the initial melody is stated by trombones and then bounces to each section. (Pub)

-----

Here's Alan Baylock's contemporary treatment of this wonderful jazz standard in a half-time funk feel played with the half note equaling about 96 bpm. The lead trumpet range is to written B flat, a suggested written alto sax solo is included, optional parts are included for expanded instrumentations, and the initial melody is stated by trombones and then bounces to each section. Oh yes, Cole Porter and Alan Baylock... big-band writing doesn't get much better than this! Highly recommended! (JWP)

As recorded on the great Basie-Straight Ahead album of 1968 by Count Basie, this swing outing features solid section and full-ensemble writing, brass buckets, sax scoops, drum fills, and piano in the solo role. The tempo is not taxing (quarter = 120) and paying careful attention to changes in dynamics will be especially important. Rhythm section parts are partially notated with chords cued. (Pub)

As recorded on the Silverline Records album XXL (CD and DVD Audio) by Gordon Goodwin's Big Phat Band, this ferocious chart is a totally hot rock-swing-jazz for big band. It will tear it up every performance! Featuring solo space for tenor, trumpet, trombone, or guitar, tons of energy abounds from the first note to the last. Perfect for any experienced band in concert or festival setting. (5:19) This title is available in SmartMusic.

"This hot jazz-rock arrangement of the Gordon Goodwin Big Phat Band original features a driving bass line and solo sections for alto sax, tenor sax, and drums. A playable yet high-energy chart, the arrangement features fully notated solos, manageable ranges (lead trumpet to written G5), and a solo section that can be opened up for additional players."

Recorded by the Cannonball Adderley Quintet in the 1960s, this distinctive samba was composed by Cannonball's brother Nat. Featuring a relaxed Latin groove and the familiar riff-like melodies, Mark's chart uses an ensemble of 3 saxes, trumpet and trombone alternating with punches from the entire ensemble. Solos are included for alto and trumpet, and the shout chorus features occasional 3/4 measures thrown in for added spice. (Pub)

This timeless spiritual classic gets the front burner treatment from Disney writer Chris Sharp. A lush opening chorale gives way to a driving New Orleans street beat with tenor solo (as written or with changes) and an easy shout chorus. (Pub)

Victor Lopez works his magic on Chuck Mangione's classic. A lazy intro for trumpet and alto explodes into a fierce samba that doesn't let up. 1st trumpet has the melodic solo and the jazz solo (written or ad-lib). Solo trumpet range to written A. A great addition to any concert, this chart is full of fire and easily more...recognizable by the audience. (Pub)

Swing is the name of the game in this original inspired by and modeled after the Basie version of Lester Leaps In. Challenging unisons for the whole band and solo space for tenor, trumpet, piano and bass are highlights. Bob's band recorded this chart with brass in bucket mutes throughout for a distinctive sound, but in his score notes he says they're optional. (Pub)

This is a re-issue of the famous title featured by Count Basie and others. This should be in EVERY school jazz ensemble library and performed at least once a week. Great for teaching rhythmic ensemble performance. You shouldn't miss this one! (Pub)

-----  
Composed and arranged by Neal Hefti, this is the original chart that says just about everything there is to say about relaxed, laid-back swing! No good jazz library is complete without this incredibly good chart! (JWP)

Don't be fooled by the medium-tempo intro---this chart morphs into a burnin' swing chart at 250+ BPM. Solo space is provided for tenor but you can open this up easily. Fantastic lines, counterpoint, cascading sections, pyramid patterns, and just flat-out swingin' music makes this a must-have for your ensemble. This title is available in MakeMusic Cloud. (Pub)

Written to coincide with Shelly Berg's successful Chop-Monster jazz language tutor, the sax duet writing in this blues original pays tribute to legendary big band writer Billy May. Saxes should strive to play scooped notes uniformly; lead alto may exaggerate the scoops a bit more than the other section members. As with the other charts in this series, solo space is allowed for all instruments, and optional parts for flute, horn, tuba and vibes supplement the standard big band set. (Pub)

Astor Piazzolla's music lends itself well to the big band idiom, and Fred Sturm is a masterful arranger for big band. As recorded on "Libertango ! "My Foolish Heart" is a gorgeous ballad feature for alto saxophone. Arranged by Dave Rivello, this chart is lush with beautiful textures but very accessible to the Grade 3 level. Lead trumpet range is to written A above the staff, and everything is written-out for the alto sax soloist. Very Kenton-ish! (Pub)

-----  
 My Foolish Heart is a gorgeous ballad feature for alto saxophone. This chart is lush with beautiful textures but very accessible to the medium grade level. Lead trumpet range is to written A above the staff, and everything is written out for the alto sax soloist with changes provided for some improvisation or ornamentation. A nice modulation leads to a more improv-like section for the soloist and a piano solo break leads to a full band feature section. Highly recommended! (JWP)

Scored for 12-17 players and dedicated to Mike's daughter, this pretty rock ballad contains an improvised solo section (optional written solos are included) for alto or trumpet. The opening piano solo sets the mood and establishes the relaxed groove. In this chart, directors shouldn't take liberties with the metronome marking since this may compromise the laidback feel. Alternating between rock and half-time funk, this chart makes use of a drum groove similar to the ever-popular Birdland. The catchy melody is first presented by tenor and trumpet then spreads throughout the band. Innovative tenor solo sections really groove and give an opportunity for foolproof improvisation. A real confidence booster and very approachable for bands at this level! (Pub)

Originally recorded in 1975 by Count Basie and titled because Basie loved to eat orange sherbert, this fresh setting features easy registers, strong jazz figures, and a bright, free-swinging style. A written or ad lib trumpet solo in the midsection and an ensemble shout before the final chord are highlights. Rhythm section parts are notated with chords cued, and a guitar chord chart by Jim Greeson is included. (Pub)

This exciting blues shuffle is great for getting "down n' dirty!" A great choice for festivals, saxes in particular get some great soli work. Solo changes are cued in all parts, followed by a chorus for the pianist. A strong shout moves to a big finish, with an optional ending for those with strong trumpet chops. A hot chart! (JWP)

The Who recorded their landmark rock opera Tommy in 1969, and from that album "Pinball Wizard" went on to become an enduring classic. This solid version for jazz ensemble gives each section a feature spot on the melody, interspersed with the full band on the hard-hitting chorus. A written or ad lib. solo is included for tenor sax.

A few triplet and swing figures, along with a lot of unison scoring, make this a natural for young jazz ensembles. Give this chart a look! (Pub)

This unique original is an ideal change-of-pace tune for your next festival or concert program. For developing ensembles, it opens with a mysterious, Spanish style rubato introduction with solo trumpet and rhythm section, then breaks into an all-out, hot Latin/Spanish style that doesn't let up. Crisp ensemble work and written or improvised solos lead to a percussion break before the head returns. Pure excitement! (JWP)

A very hip, funky groove chart played around 168 BPM and loaded with the classic Goodwin flair. Plus, sample solos are provided for C instruments, E-flat alto/bari, B-flat tenor, B-flat trumpet, and trombone. Lead trumpet range is to written high C with optional D. The instrumentation incorporates an auxiliary percussion part and optional instruments including flute and vibes. The band and the audience will totally enjoy this great chart! (Pub)

Start your band off swinging with this Gershwin standard arranged by Ralph Ford. The trombones start things off, add the brass section, then add a sax soli. Hold on, there's more; into a tutti for the ensemble followed by written or ad-lib alto sax, trumpet and piano solos. Can you identify the clever quote? The shout chorus brings it all home. Superb writing throughout. (Pub)

-----

Start your band off swinging with this famous, classy standard! The trombones kick things off, and the interplay between sections of the band is particularly effective. A full ensemble tutti section will really show off your band's skills. (JWP)

In its original version, this contemporary ballad featured alto sax soloist -- here tenor sax is the star -- but the rich harmonic character and lyrical qualities of the professional version have been retained. Developing players will need to practice the split triplets since they give the tune its loose, relaxed feeling; but that work will be well rewarded at concert time. (Pub)

Believe it or not, this Benny Goodman classic has never been available for standard big band instrumentation. The original contains solo clarinet and less than a full compliment of brass, so we asked arranger Mike Lewis to adapt this classic tune for five saxes, four trumpets, and four trombones with rhythm section, without straying from the original feel. His chart does just that, creating a welcome addition to any jazz band library. We know you'll enjoy it! (Pub)

-----  
 Here it is...perhaps the most recognizable swing tune of all time! This incredible transcription is as close as you're going to come to the original (which included clarinet and less than a full compliment of brass). This chart is scored for a standard 5 saxes, 4 trumpets, 4 trombones and rhythm, but aside from that, it is the original as played by Benny Goodman. Every lick is there, including all the Gene Krupa drum breaks! This chart is a must for every big band's library! (JWP)

Composer Neal Hefti wrote this classic swinger for Count Basie and legendary arranger Sammy Nestico scored it for the Jazz Band Series. Your band will shine on this medium tempo chart and the ensemble writing will have the band sounding just like Basie. Solo space provided for 1st tenor sax, 2nd trumpet and 1st trombone, accessible brass ranges, add the Basie-style rhythm section fills and you have a superior chart that will stand the test of time. (Pub)

Down-home and bluesy, slow and greasy! This outstanding chart blends a New Orleans-style slow swing and contemporary harmonies. The best of both worlds comes alive within the creative mind of arranger Tom Davis. Your young band students will love this arrangement so much that they won't want to stop playing. Lots of unison, easy brass range (trumpet to F and trombone to E-flat), alto and tenor sax written solos with band backgrounds, and simple rhythms will all give you a quality musical product with minimum rehearsal time. Very effective chart for festivals and concerts! (Pub)

Commissioned by the Jazz Division of the Illinois Music Educators Association for the 2017 All State Jazz Ensemble, this medium advanced chart provides students with a wealth of learning opportunities. Second line, Dixieland and straight ahead swing all combine to create a great musical experience. Plenty of solo space over the chord changes to Back Home Again In Indiana round out the chart. An optional vibes part is included. (Pub)

-----  
Paced at around 174 bpm, State Line Strut is a swinger with a New Orleans second line groove. Commissioned by the Jazz Division of the Illinois Music Education Association for the 2017 All-State Jazz Ensemble, this well-conceived chart is a contrafact (a new melody written over existing chord changes) on the standard Back Home Again in Indiana. The features include call and response sectional interplay, a small ensemble of alto 1 and trumpets 1 and 2 presenting the head, swinging full band passages, quotes from Back Home Again in Indiana, written solo exchanges, and the rhythm section laying down the second line feel. Additionally, there is solo space for any saxophone, guitar, trumpet 2, or anyone. This one is hot! (JWP)

This chart swings! A sensational chart that captures the collaboration of Ellington and Strayhorn, played around 130 BPM. Lead trumpet plays to written A with optional high C. Solos written out for trombone, alto, trumpet, and tenor. Great use of plunger mutes for trumpets. Excellent chart in every way! (Pub)

-----  
This chart on an iconic standard starts big and then reveals that the head is atypical, but very cool. At first it might seem a little dated, but Kamuf is only hinting at the past. Overall, it's a contemporary take and turns into a real swinging groove during the solo section for alto, trumpet and trombone. Then there's an out-of-sight sax section soli before the drummer gets his licks in with an extended solo. Creative, exciting and highly recommended! (JWP)

It's true, it Tastes Like Chicken! A slow gospel-style introduction leads into an extra crispy groove that will have the band coming back again and again. The melody is catchy, the groove is funky, the rhythms are simple and solos (written or ad-lib) are for tenor and alto saxophones. Trumpet range to written G. This is a fun and exciting contemporary chart that is accessible for the young player. Guaranteed to deliver in four minutes! (Pub)

-----  
 What a hip chart! You've heard of the funky chicken, but how about a chicken full of funk? Hot licks, a cool groove, and tasty solos add up to one smokin' chart that's right on target for bands at the easy level. The slow, gospel-style opening gives way to a funk-rock beat that just won't quit. Very highly recommended! (JWP)

Here's one of the great bebop tunes of all time from jazz great Sonny Rollins. Mark's medium up-tempo chart features both tenor saxes and swings like crazy. (Pub)

-----  
 This Sonny Rollins' classic is bebop at its best! A stellar, up-tempo chart that lets you turn both your tenor players loose and let them battle it out in the solos. The two tenors trade phrases while the band keeps things cooking throughout. It sounds like a little "madness" is good for the soul! (JWP)

Here's a great chart on the familiar Harry Warren jazz standard that features the drummer on brushes and tasty figures from the full ensemble. Also featured are wonderful sectional and full ensemble passages that display your band's ability for cohesive playing. There's a suggested or improvised solo for trombone supported by excellent background writing. Here is a highly creative and tasteful chart that exemplifies this arranger's skill. Developing groups will find it ideal for festivals, concerts and casual occasions. Highly recommended! (JWP)

Here's a funk chart for advancing groups that features a groovin' rhythm section and your choice of soloists. It has a unique sound that is sure to be a resounding favorite with players, audiences, and of course, festival judges. Film composer and orchestrator Bill Liston offers suggestions on how to rehearse this chart by "constructing" the groove step-by-step, which builds a solid foundation that supports the rest of the parts. The 16th note syncopations are guaranteed to give your band that sophisticated sound that sets them apart from other groups. (Pub)

"Things Ain't What They Used to Be" is a terrific shuffle swing at 120 BPM. It features a classic melody with written solos available for alto, trumpet, trombone, and tenor sax. A powerful Baylock-style shout chorus is a hit, and the lead trumpet range is to written G on top of the staff. A winner for sure! (Pub)

-----

Mercer Ellington's classic blues shuffle gets the Baylock treatment! The style is down home and the solos are for alto, trumpet, trombone, and tenor sax. Also included is a powerful Baylock-style shout chorus and optional parts for expanded instrumentations. It's a fun chart and it gets our highest recommendation! (JWP)

-----

This is too much fun to miss! A classic swing tune in a solid arrangement loaded with good stuff. Written in the style of the Woody Herman big band, this offers plenty of opportunity for developing jazzers to get into the swing style, even that trombone soloist. Flexible instrumentation allows performance with as little as 3 saxes, 3 trumpets and 3 trombones. (Pub)

This is a new edition (Finale computer notation) of this wonderful composition. It is available with a full score for the first time. Exactly as recorded by the Stan Kenton Orchestra on the "Kenton '76" CD, this is, unquestionably, one of the best things Hank ever wrote for Kenton. Once you get by the 9/8 meter (not too difficult), the reasonable ranges (1st tpt. high D only) make this a very playable chart. The melody is absolutely lovely, and there is solo space for alto, tenor and trumpet. 5-5-5-3 (can be played with only 8 brass). (Pub)

As recorded by the Toshiko Akiyoshi/Lew Tabackin Big Band on the album Road Time (RCA), this swingin' blues shuffle for experienced players has it all -- strong ensemble choruses, sax and brass section solis, and solo opportunities for tenor sax, trombone and two trumpets. Use of the optional woodwinds will enhance the overall sound, and a big finish adds the perfect finishing touch. Rhythm section parts are chords and slashes. (Pub)

Treat your band to some of the best contemporary big band writing ever! Featuring trombone and guitar soloists, this chart is perfect for festivals or concerts. Composer Alan Baylock is one of the finest writers on the jazz scene today and with Two Seconds to Midnight he delivers the following: energy, style, a modern rock-fusion groove, an intimate small group sound, the power of the full ensemble...you get the picture. It's all there and it's HOT! (Pub)

-----

This high-energy chart is perfect for concert or festival performance because it's intensely funky, and very cool! The intimate, small-group sound of the solo segments for trombone and guitar contrast effectively with the fully voiced power of the rest of the chart, creating a very satisfying rock-fusion groove! "US" is a wonderful Gospel/Rock composition a perfect 4th below Thad's to making it accessible to younger players. Thad utilized the "a cappella" brass soli, supported by the saxes in this arrangement, producing a solid funk/rock/gospel piece that students and parents will both enjoy. Interestingly, this is one of the few big band charts Thad wrote without solo space. (Pub)

As originally recorded by Count Basie on the Roulette LP (Vogue CD) "Kansas City Suite - the Music of Benny Carter," this is a medium-up Shuffle feel, with solos for tenor saxophone and piano. The sax section plays the tune in unison while the brass interject those terrific rhythmic figures that Carter wrote so well. Soft, tight ensemble passage swing like crazy and raise the roof when played yet again up an octave and very powerfully. What a joy this one is! Classic Basie! 5-4-3-4 (w/opt. 4th Trb.) (Pub)

This is one of those charts that can be played by any reasonably accomplished big band (including high school players). It is Mulligan's own chart on his famous tune. The only recorded version of it, oddly enough, is the one on Road Show, and it was used as a vehicle for June Christy and the Four Freshmen to sing. They simply sing the instrumental lines which are in the chart. However, when the band takes over, it is obvious what a great chart this is. Easy swinging and wonderful music. (Pub)

Composed for the Wyoming All-State Jazz Band (which premiered it in 2011), When I Think Of Her is a very playable and engaging contemporary straight-8th song. It is dedicated to the special women in our lives- mothers, sisters, wives, daughters, best friends, soulmates, etc.- and captures the joy and gratitude we all feel for them. Fully-notated rhythm section parts, no extreme ranges, and easy soloing changes make this a great vehicle for any high school band, and possibly some middle school bands as well. Solo changes are in the piano, tenor 1, and all trumpet parts, but the solo section is open and would work for any soloist. (Pub)

Don Ellis and Hank Levy. Both are legendary for big band charts in odd meters. Whiplash is a super-exciting chart in 7/4 composed by Levy and arranged by Erik Morales. Don't be intimidated by the meter---after a few minutes it feels quite natural and the students will totally eat it up. The melody is stated by 2nd trumpet and 1st alto with solo space for both with easy chord changes. Articulation is critical and the rhythm section may want to spend some quality time together. Lead trumpet range is to written D above the staff. This is a unique but very desirable chart to have in your library that you won't regret playing. (Pub)

A great jazz standard, this swing chart plays well at 176 BPM. Features of Adderley's "Work Song" include a lead trumpet range to written A above the staff, written alto and trumpet solos, a great shout chorus, and cool development section. You'll love it. (Pub)

Wow! If Nat Adderley could hear this chart on his iconic jazz standard, he would be pleased! The first statement stays very close to the original, which is a good thing. The solos are for written or improvised alto and trumpet, and the solo backgrounds are simply wonderful. This swinger plays well at about 176 bmp, has excellent full-ensemble passages, a bari sax and rhythm section break before the last chorus, an exciting shout chorus, and great development. This chart has it all! Our highest recommendation! (JWP)

Although bebop master Charlie Parker is known for his blazing improvisations and advanced melodies, this is one of his most approachable and melodic compositions. Lending itself perfectly to a big band setting, and in the hands of Mark Taylor, this swingin' tune becomes an impressive-sounding chart for jazz ensemble. (Pub)
