How to Use this Tour

Use the forward/back buttons to navigate between slides.

Click the home button to return to the main menu.

Click a topic link (above) to go the first slide of the selected topic.

How to get to your MSDS Library

There are several ways a company may choose to provide access to their MSDS inventory using the MSDSonline HQ system:

- A designated URL (Web page) on the Internet
- A shortcut Icon on a users' PC/desktop
- A link on the company Intranet site

Be sure to ask your MSDS administrator which method has been implemented at your company.

Search your Company eBinder

Search your company library for an MSDS. You can use the basic search fields within the simple search to find most of your MSDSs or you can click on the Advanced Search for more options to help filter your search.

TIPS

- Use "*Full Text*" when you have a long product name or a product with multiple strings (e.g.: iodine 99%) and can enter most of the product name or strings.
- Use "*Contains a Match*" when you are not sure of the entire product name but you are familiar with parts of the name.
- Use "*Starts With*" when you know either the characters in the start of the product name or the first word of a product name with multiple strings.
