A lot of care, detail and research went into the development of these unique socks to please children with sensitive little feet.

### What parents are saying

"SmartKnit Seamless Sensitivity Socks for children have changed my nine year old's life. My son has a sensory disorder and no matter what pair of socks we purchased for him, he was able to feel the seams and was not able to wear any of his socks. Socks to him were not "just a pair of socks". They literally hurt his feet. We struggled every morning with the tears and anxiety of him trying to make a pair of socks "work" for him. I finally found SmartKnitKIDS socks and can tell you that they have changed my son's life. Putting on his socks in the morning is no longer an unbearable struggle. Thank you SmartKnitKIDS!" -Diane D., SmartKnitKIDS Parent

I HAVE to tell you what a difference these have made in our lives!!! Before, I could not get my child to put his shoes on - he was always pulling them off, throwing them down and saying his socks had "nuggies" (seams). Since I have purchased, this has not happened once!! These are the only socks he will wear (and the only ones I will buy for peace of mind!!!). Thank you !!! -Lora B., SmartKnitKIDS Parent
